

## Director of Engineering

Progressive environmental engineering and consulting firm is seeking an individual to plan, oversee and coordinate engineering operations of the firm.

This position:

- Reports to the Chief Technical Officer (CTO)
- Is responsible for company-wide engineering functions including:
  - environmental site investigations and remediation,
  - land use, and
  - storm water management projects.
- Is based out of our Princeton, NJ office.

Candidates must have:

- An advanced degree and P.E. license,
- At least 10 years of experience.
- Demonstrated experience and expertise in acting as a technical expert,
  - maintaining proficiencies and developing engineering staff, and
  - developing new clients and projects.

This is an excellent opportunity for the right individual to be a part of a growing firm. The ELM Group offers a highly competitive compensation package including medical/dental insurance, 401(k) with match, and an Employee Stock Ownership Plan (ESOP). Please submit resume and salary requirement to [hr@elminc.com](mailto:hr@elminc.com). EOE
