

POSITION: Environmental Scientist / Wetland Delineator – PITTSBURGH OFFICE

Wallace & Pancher, Inc. is an engineering and environmental consulting firm that provides services in environmental planning and permitting, natural resource studies, and design services to a diverse group of clients in the private and public sector. Our rapid growth can be attributed to the dedication to our clients, relationships with environmental agencies, and our “get it done” philosophy. We employ a professional dedicated staff of engineers, biologist, designers, and construction personnel.

Our philosophy: Bridge the gap between engineering and ecology.

We approach each project as an opportunity for the engineering and ecological disciplines to work hand-in-hand to achieve client goals. Our highly qualified staff is experienced with wetland and stream design, natural resource ecology, and the laws and regulations that govern the protection of natural resources.

We are seeking qualified professionals to fill the full-time position of Environmental Scientist / Wetland Delineator at our Pittsburgh Office, located in the Southpointe Office Park in Canonsburg, PA:

The successful candidate will have a minimum of a B.S. degree in environmental science, biology, or related field, and a minimum of 3-5 years of experience preparing federal and state permit applications, specifically Chapter 105 Section 404 Applications. Applicants must demonstrate experience in performing wetland delineations and working through the USACE’s Jurisdictional Determination process. Additional experience in watershed science/planning and GIS is desirable.

WPI offers a challenging and exciting work environment, competitive salary, benefits including healthcare and retirement, as well as paid vacation and holidays. If you are looking for a rewarding working environment with advancement potential, please contact us.
