

Position Title: Environmental Scientist/Project Manager

Company Name: A.D. Marble & Company

Location: Pittsburgh, PA

Ending Date: February 10, 2012

A.D. Marble & Company is seeking an experienced Environmental Scientist for the Pittsburgh, Pennsylvania office. Work will include management and technical activities related to National Environmental Policy Act (NEPA) documentation and permit preparation. The candidate will offer assistance to our office manager for the Pittsburgh office. Duties may include conducting field work, report writing, client interaction, budget and schedule management, and business development activities. The candidate should have a B.S. degree in Biology, Environmental Science, or related discipline and a minimum of 7 years of experience preferably in the transportation industry. The position will require excellent written and verbal communication skills as well as the ability to work in a team environment. The ability to interact with a variety of clients in various situations is a must.

Candidates for this position should have experience in more than one of the following subject matters: NEPA documents, natural resources studies (wetlands, streams, and wildlife), wetland and stream design activities, Pa Chapter 105 permits, NPDES permits, and E&S Plans. Experience with construction related services including construction management would be beneficial. CADD and/or GIS capabilities is a plus.

A.D. Marble & Company is an equal opportunity employer.
