NEPA Project Manager

#1 Posting

Please post job until: April 16, 2012

Company: Gannett Fleming

Location: Camp Hill, Pennsylvania 17011

Job Description/Requirements:

Gannett Fleming is a global planning, design, and construction management firm with more than 60 offices worldwide. Founded in 1915, we have fostered a culture of service and innovation with more than 2,100 diverse and talented professionals. Consistently ranked among the nation's most prestigious engineering firms, we provide multi-discipline engineering services, including civil, transportation, environmental, structural, and construction management. We are committed to amaze our clients by providing customized solutions that improve our communities and sustain the world – from award-winning roadways to vital environmental systems to patented technology.

We are seeking an experienced National Environmental Policy Act (NEPA) professional to help manage planning and environmental projects. The senior environmental project manager will be responsible for client management and project management of medium to large environmental projects. The position also requires active business development and proposal management. We are known for innovation, high-quality work, high level of client service, and collaborative project teams. Our environmental projects are varied and challenging. Project opportunities will have a national focus.

Education/Skills:

Skill Requirements

The candidate must have the ability to lead and inspire a team to succeed, savvy in NEPA consulting, and experience in project management. Strong analytical, computer, and writing skills are a must.

Experience Requirements

- Qualified candidates will have at least 10 years of direct experience, including project management, supervising staff, preparing NEPA documents including EISs and EAs for various federal agencies, and strong interpersonal skills.
- A record of successful environmental planning projects and effective working relationships with clients and regulatory agencies is also required.
- Experience working on complex infrastructure projects is desired. Some travel required dependent on project dynamics.
- Experience preparing and teaching NEPA-related courses, seminars or workshops would be beneficial.

Education

Bachelor or Master's degree in planning, environmental science, geography, natural resources or a related field.

Certified Environmental Professional (CEP) and/or American Institute of Certified Planners (AICP) certification is considered a plus. Active professional involvement in TRB, NAEP, or related professional societies is desirable.

Gannett Fleming is an Equal Opportunity Employer

NO AGENCIES PLEASE. Unsolicited resumes from third party agencies will not be accepted.
