

## Vegetative Roof at Tobyhanna Army Depot 16 August 2007

Tobyhanna Army Depot uses a holistic approach to pollution prevention; systematically eliminate hazardous material use and operations or processes that produce hazardous/solid waste, waste water, and emissions; instill the pollution prevention ethic throughout the entire Army community and all mission areas. The depot has developed and implemented strategic environmental management approaches and procedures to minimize all environmental contamination and pollution. The depot also serves as a role model for both the Army and private industry.

Here's the agenda for this event:

- 9:00-9:15 Welcome
- 9:15-10:15 The Toby Story
- 10:15-10:30 DEP status report/energy initiatives
- 10:30-11:30 Presentation on the vegetative roof and Tobyhanna's other P2 successes, followed by a tour of the vegetative roof
- 11:30 lunch and adjourn

If you'd like to attend this event, please contact Randy Didier at (570) 895-7090 or [randall.didier@us.army.mil](mailto:randall.didier@us.army.mil).

Please provide your name, business name, citizenship, date of birth, and phone number.

Also, please bring a valid photo ID with you to check in at Security.

Tobyhanna Army Depot is a ISO 9001 and 14001 certified facility.
